

## PRIMARY PROJECT BOXES

### Background

Following the publication of the Curriculum Partnership's Early Years Handbook, a group of Subject Associations collaborated on a similar publication for KS1, due to be published in January 2008. Work is now beginning on a further publication, aimed at KS2.

### Outline of the Publication

The *Primary Project Box KS1* is designed to offer primary schools support in ensuring that their subject work with Key Stage 1 children is excellent, enjoyable and based on sound subject knowledge and pedagogy. Written by teachers for teachers, it contains five themed teaching units in booklet form, each with its own multimedia CD. The theme, 'Our School/Our World', develops subject knowledge within the coherence of children's experience. As well as the teachers' guide: *Teaching out of the box*, there are five units:

- Unit 1: Our classroom and our school
- Unit 2: Inside, outside
- Unit 3: Our wider world
- Unit 4: Our changing world
- Unit 5: Our future world

Members of the Subject Associations involved in the publication will be able to buy it at a significant discount.
